(54) ELECTRICALLY DRIVEN PRIZE WINNING DEVICE

(57)Abstract:

PURPOSE: To provide an electrically driven prize winning device which is compact in its size and has good efficiency of prize winning by forming an electrically driven honor capable of conducting different actions on one base plate.

CONSTITUTION: A base plate 3 fitted to a game board 2 includes a pair of guide walls 4, a pair of movable members 5a, 5b, a pair of prize winning spaces formed between the paired movable members 5a, 5b and the paired guide walls 4, and a pair of electrically driving sources corresponding to the movable members 5a, 5b. In an ordinary condition, a hit ball flows down between a pair of movable members 5a, 5b to be put in a first condition where the ball will not go into the prize winning spaces 6a, 6b, and when designated conditions are established, the driving sources are driven so that one of the paired movable members 5a, 5b opens a space between the guide wall 4 and the movable member 5a, 5b for designated time to enable the ball to go into the prize winning space 6a, 6b corresponding to one of the movable member 5a, 5b.
